

# HZ SKI

a flight of excellence

# HZ-SKI

this is no standard luxury corporate jet

## Behind these five letters, travel re-invents itself

Step aboard the Boeing 727-212 HZ-SKI and the evidence is inescapable.

This is a corporate jet so exclusive, so lavishly equipped and furnished, so advanced in navigational aids and in-flight entertainment, that even its full range of 4,000 miles seems like a mere stride across the sky.

Naturally, the quieter your journey the calmer your flight; HZ-SKI has triple insulation, so all three engines power you on your way with a whisper rather than a roar.

Concentration or relaxation are simple to achieve. With its special, six compartment configuration, there is more space in which to work or stretch out, than in any other corporate aircraft.

This stretched Boeing 727 can accommodate 52 passengers in superb luxury and comfort.

Two loungers are equipped with computer connections to allow in-flight business presentations on either a 50 inch Plasma screen television or a large movie screen. Each seat has its own private audio jack and reading light. To keep you in touch with your home or office, private satellite phones are on hand in the forward lounge, mid-lounge and bedroom. And if necessary, your crew can screen all incoming calls.

In-flight entertainment> Choose from 200 films showing DVD or VHS. Big screen, naturally, but complimented with plush, preview theatre comfort.

Even the most opulent hotel was never equipped to such a degree of excellence. Deep pile woven carpets. Pure gold finishes.

A wealth of veneers. Inlays of genuine lapis. A magnificent master bedroom. A state-of-the-art audio system. The latest avionics.

Unstinting attention to detail is the sole object here.

**And truly, it shows.**

## the art of relaxation

The forward lounge puts 11 passengers supremely at ease. (Two tables slide out from both sofas and adjust for coffee or dining level).

Apart from full movie, audio and Satphone facilities, the latest Air Show monitors your flight path, altitude, airspeed, outside temperature and ETA in English or Arabic.

The distance & direction to Mecca can also be indicated.

## in the lap of luxury...

### **Dine, Doze, Discuss, View, Listen, Phone Home...**

Sumptuous seating for fifteen – a combination of sofas, lounge chairs and electrically adjustable tables allow passengers to dine, study or relax in spacious and harmonious surroundings.

If an in-flight computer presentation is required, the facilities are here. The same goes for a film on a big screen. Or, for music from CD or cassette. (Four subwoofers and no fewer than eight ceiling speakers provide Dolby (R) surround sound of concert hall quality).

### **In the lap of luxury...**

The eight club seats adjust to full sleeper position. They can also be faced inwards for dining or conversation. Four of these seats swivel 180 degrees to face the main video screen. The very latest MSA windows close to ensure total darkness.

To keep passengers in constant touch with conditions outside, Air Show displays a 3D flight path and indicates speed, height, temperature, and time of arrival continually. A private satellite phone ensures that the world is only a call away.

## time for bed....

But first, linger in the en suite bathroom – complete with wardrobe, water closet, bidet, vanity unit and shower. Note the superb gold fittings, and in particular, the mirror and vanity surface crafted from scintillating blue lapis lazuli.

Oh sleep! It is a gentle thing, beloved from pole to pole...  
(Samuel Coleridge)

Nothing prepares one for an important meeting quite like the blessing of a good night's sleep. And a California Super King Size Bed virtually guarantees it.

Now consider the totally independent entertainment system in this remarkable bedroom... movies on a 21 inch LCD TV and CD & cassette music with four speaker Dolby (R) sound. Décor, furnishings, lighting, bedding...

everything has been designed to lull you into serene sleep. At your bedside, your private satellite phone. In Gold.

Flight Deck

Forward Lounge (11 seats)

Bedroom & En-suite

Mid Lounge (15 seats)

AFT Lounge (24 seats)

## the details...

### Food for Gourmets

From the immaculately equipped galley comes the very finest in-flight cuisine, prepared to individual requirements.

The ingredients, the skills, the unfailing dedication of top chefs are here in abundance.

The cutlery is from Christofle and crockery was especially commissioned from Royal Doulton; these are accompanied by exquisite crystal Atlantis glassware.

### 24 Seat Aft Lounge

Positioned aft, the lounge is fully equipped with video, private audio, tables and club seating.

### On the Flight Deck

State of the art avionics, navigation and satellite communication equipment.

The aircraft is approved for the latest Atlantic crossing and European minimum lateral separation regulations.

Your crew compliment consists of two Captains and a Senior Flight Engineer on the flight deck and two flight attendants – all are dedicated to providing the highest professional standards of service.

### Rest Area

More than just a rest room, this discreet area has a three seater sofa that converts to a single bed, a pull down bunk with privacy curtain. The Washroom within this area includes a bidet.
